Please attach supporting documentation indicating why you require subsidy.
Acceptable documentation includes a letter from social welfare agency, relevant
government agency, church leader, etc.; or recent cheque stub from social welfare
or other support payments. If no documentation is available, please include a note
or letter indicating why you require subsidy support.

We try to supply subsidies for campers and students wherever possible. To some
extent, we depend on outside funding agencies for financial support which allows us
to provide these. Where this is not available to us, we will attempt to provide as
many subsidies as we can using our own internal resources.

Note that we may not be able to provide confirmation of approval of subsidies until
mid-May, in the case of summer camps. Reducing the percentage of subsidy
requested may allow us to provide an earlier decision.
